

## **SINGHANIA SCHOOL'S CLUB URJITA**

The month of August was full of activities for Singhania School in Mumbai. Taking the Club Enerji initiative forward, the kids recently formed 'Urjita', an energy conservation club in their school. As part of members of this club, the kids will be the crusaders for energy conservation reaching out to individuals making them aware on saving energy.

On the launch day of 'Urjita', the members of the club carried out activities in the school. There was a 'Batti Bandh' organised in the school for an hour. The Principal of the school gave a talk on how to save energy followed by a poster making competition with a theme on saving power. The members also came up with a song for the club called 'Urja Akshay Urja'.

In near future, the club plans to organise street-plays, music, poster/logo-making and dramatisation sessions apart from active campaigning for the noble cause.
