

Ryan International School Celebrated Environment Week

Environment is an integral part of our life. It influences and shapes our life. It is from the environment that we get food to eat, water to drink air to breathe and all necessities which is the base of our life support system. To create awareness amongst people, Ryan International School celebrated 13th to 18th July as the Environment week. Various activities were conducted as part of it. The students planted saplings of different plants with a pledge 'we as responsible citizens of this country, should keep alive the motto 'Each one plant one''. Every child prepared banners with slogans for saving the environment. Activities including preparing collage posters and 'best out of waste' were conducted. The school also conducted a bicycle rally to mark the significance of environment by shouting slogans on the streets so that the citizens of India also take a pledge to save the environment. Students enjoyed this week as it bought a sense of responsibility to save the environment.
